

## Revolutionary Time Machine Procedure<sup>SM</sup> University Launched In San Diego, CA

The first Time Machine training class for the Time Machine Procedure<sup>SM</sup> (TMP) providers, conducted by noted dermatologist and TMP inventor Tess Mauricio, was completed August 16, 2014 at The Del Mar Marriott Hotel in Del Mar California.

Time Machine Concept LLC, headed by Doctor Tess Mauricio has joined forces with industry leader, Eclipse Aesthetics LLC to introduce the TMP which will be performed by licensed TMP providers worldwide. In the rapidly commoditizing aesthetic marketplace, the TMP has proven to generate amazing results for patients and uniqueness for the participating practices.

An extraordinary combination of leading edge technologies and techniques merged with many years of perfecting, the TMP takes on age-related issues including skin deterioration, sun damage, wrinkles, sagging, and loss of volume, as well as hyperactivity of muscles for facial expression. Offering complete rejuvenation and natural looking results, this customizable process helps patients appear like they have traveled back in time, emerging how they looked 5 to 10 years earlier after only a few treatments.

“With the great TMP technology, you never have to look old and you can look as young as you feel. We maintain everything else in our lives, our home and our cars. What about our vessels, our bodies? TMP not only makes us look good on the outside, but it truly affects the way we feel on the inside. With the Time Machine Procedure<sup>SM</sup>, you can always look your best at any age, and without surgery!” – Dr. Tess

The first graduates of the Time Machine Procedure<sup>SM</sup> University came from across the country to complete their training. The attendees were: Arabelle Sarkis MD – Los Gatos CA, Roy Harris MD - Rocklin CA, James Wilson MD – Naperville IL, Maria Regaldo MD – Las Vegas NV, Stellar Skin Arizona – Tempe AZ, Vitality Med Spa – Oklahoma City, Beaumont Health & Wellness – Beaumont TX, Dr. Midas Medical Group – Rowland Heights CA, Feldmar MD – Los Angeles CA.

“Upon completing my TMP training, my team and I were pleased to book 10 Time Machine Procedures<sup>SM</sup> the first week back! My patients are thrilled to have such a unique opportunity to take years off their appearance with minimal downtime and no surgery!” said James Wilson M.D.

The Time Machine Procedure<sup>SM</sup> is the preferred anti-aging treatment for international celebrities such as Marla Maples, Black Eyed Peas' Apl de Ap, Hilda Koronel and Gabby Concepcion among others.

Upcoming Time Machine Procedure<sup>SM</sup> University Workshops:

September 6<sup>th</sup> – Philadelphia, PA

September 13<sup>th</sup> – Orlando, FL

October 4<sup>th</sup> – Chicago, IL

About the Inventor:

Dr Tess Mauricio, Board Certified Dermatologist and graduate of Stanford University School of Medicine, founder of M Beauty by Dr Tess clinics with multiple locations in Southern California. Dr Tess was a Past President of the San Diego Society for Dermatological Surgery and recognized innovator in the field of cosmetic dermatology and treatment of skin of color, invented the nonsurgical combination procedure (TMP) years ago and first introduced it in the market in 2012. After years of producing results rivaling

surgical procedures utilizing a unique protocol of a combination of the best in class non-surgical technologies along with a lasting brand the consumers embrace and a practice management solution that has transformed her practice. The Time Machine Procedure<sup>SM</sup> has been featured on multiple TV networks locally and internationally, in New Beauty and Health Beauty and Life magazines, has been a gift for Hollywood's GLAAD Awards and in Dr Tess' book California Total Beauty.
